OBJECTIVE

First-year B.Tech student in Computer Science (AI & ML) at VIT Bhopal University seeking opportunities to apply Python, Machine Learning, and Data Science skills in a professional environment. Passionate about building intelligent systems and solving real-world problems through data-driven approaches.

EDUCATION

VIT Bhopal University

2025 - 2029

B.Tech - Computer Science (AI & ML)

CGPA: 8.5/10 (Expected)

Delhi Public School, Birbhum

2023 - 2025

Class XII - Science (PCM + CS)

Percentage: 87%

TECHNICAL SKILLS

Programming Languages

Python, JavaScript, HTML, CSS

Data Science & ML

Machine Learning, Pandas, Statistics, Data Visualization, TensorFlow

Databases

SQL, MySQL

Tools & Platforms

Git, GitHub, Streamlit, Google Colab, VS Code, Canva

Collaboration

Google Docs, Google Forms, REST API

Operating Systems

Windows, Linux (Basic)

PROJECTS

Resume Analyzer + Skill Gap Detector

[Python](#) | [Streamlit](#) | [pdfplumber](#) | [JSON](#)

Built a web application that analyzes PDF resumes and identifies skill gaps for target job roles. Uses Python for PDF text extraction and skill matching with a match score visualization.

Digital Literacy Portfolio

[GitHub](#) | [Google Forms](#) | [Canva](#) | [HackerRank](#)

Created a comprehensive digital literacy portfolio as part of CSE0001 course including infographic design, professional profiles, coding challenges, email etiquette guide, and cybercrime awareness resources.

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank Problem Solving Certificate (Algorithms - Warmup)
- Google Digital Marketing Fundamentals (In Progress)
- Python for Data Science - NPTEL (In Progress)
